## MAIN FEATURES

Touch screen shredder with auto feeder, all controls are activated by simply touching the panel. Double motor drive technology: equipped with two 24-hour continuous duty motors without overheating and duty cycles, two separate sets of cutting knives (one for paper and one for CDs/DVDs). Carbon hardened cutting knives unaffected by staples and clips. Energy Smart System and automatic disconnection from the mains for maximum power saving, EPC System displays real-time shredding load and helps the operator to optimize shredding efficiency. Kobra 310 TS line shredders can shred transparent material too: keep your finger for 5 seconds on the Forward control and the machine works continuously for 30 seconds.

- **Automatic Feeder:** shreds up to 170 sheets, whilst the operator can - at the same time - shred paper in the main throat and CDs/DVDs/Credit cards through the dedicated CD cutting unit. Equipped with the patented anti-jamming special system in case the operator feeds the machine with crumpled or stapled paper.
- **Two separate set of cutting knives:** CD/DVD dedicated cutting unit for optical media shredding
- **Super Potential Power Unit:** heavy duty chain drive system with steel gears
- **Continuous duty shredding:** 24 hour continuous duty motors without overheating and duty cycles
- **Carbon hardened cutting knives** unaffected by staples and clips
- **EPC Electronic Power Control:** shows the shredding load required to optimize shredding without jams
- **Energy Smart System:** the machine goes into power saving stand-by mode after just 8 seconds of non-operation
- **Automatic disconnection** from the mains after 4 hours of non-operation, no need to switch off the shredder
- **Touch Screen Panel** with LED indicators: just touch the controls to activate the machine functions
- **Automatic Start & Stop** through electronic eyes - **Safety Stop** at the door opening and/or full waste bag
- **Automatic Reverse** in case of jamming

### SUPER POTENTIAL POWER SYSTEM

Heavy duty chain drive with steel gears which offer reliability and resistance to wear.

### AUTOMATIC FEEDER

It can shred automatically 170 sheets, whilst the operator can shred paper in the main throat and CDs/DVDs/Credit cards through the dedicated cutting unit, at the same time.

### LOCKABLE COVER (LK)

The lockable cover protects top-secrets or confidential documents waiting to be shredded when the shredder is left unattended. It is supplied with high security non-duplicable key.

### AUTOMATIC OILING SYSTEM

The Automatic Oiler eliminates the need to manually lubricate the unit. Not only does this protect the blades with anti-corrosive agents, but ensures maximum reliability, efficiency and capacity.
