## AVAILABLE OPTIONS

### TWO ENTRY OPENINGS AND TWO SETS OF CUTTING KNIVES

for the separate insertion and shredding of paper, CDs/DVDs/Credit cards and separation of shredded materials into two bins.

### AUTOMATIC OILER

The Automatic Oiler eliminates the need to manually lubricate the unit. Not only does this protect the blades with anti-corrosive agents, but ensures maximum reliability, efficiency and capacity.

### METAL DETECTION SYSTEM SHRED GUARD

The Shred Guard System stops the machine when large metal objects are accidentally inserted. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives.

### AUTOMATIC FEEDER

It can shred automatically 170 sheets, whilst the operator can shred paper in the main throat and CDs/DVDs/Credit through the dedicated cutting unit, at the same time (lockable cover with high security non-duplicable key available as an option).
