AVAILABLE OPTIONS

TWO ENTRY OPENINGS AND TWO SETS OF CUTTING KNIVES

for the separate insertion and shredding of paper, CDs/DVDs/Credit cards and separation of shredded materials into two bins.

AUTOMATIC OILER

The Automatic Oiler eliminates the need to manually lubricate the unit. Not only does this protect the blades with anti-corrosive agents, but ensures maximum reliability, efficiency and capacity.

METAL DETECTION SYSTEM SHRED GUARD

The Shred Guard System stops the machine when large metal objects are accidentally inserted. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives.

AUTOMATIC FEEDER (See model 310 TS AF CC2)

This model is also available with a convenient 170 sheet Automatic Paper Feeder. On the Auto-Feeder model, the Paper feeder, main paper throat and CD throat can be used simultaneously for ultimate operator efficiency.
