## MAIN FEATURES

Suitable for **Optical Media high security shredding**. Dedicated to CDs, DVDs (including 80 mm mini disks), Blu-Ray and credit cards shredding, up to and including the **“Top Secret” level**. KOBRA 400 HS OM can shred up to 2.100 optical media per hour through the **special 1,5 x 2 mm cutting system**, which is the highest security level today available for optical media to meet the strictest Military and Governments shredding needs. Shreds an optical media disk into over 3000 microchips exceeding the Optical Media Destruction Devices guidelines and the ASIO T-4 standards for TOP SECRET level destruction of Optical Media. The tiny size of the shreds doesn't allow retrieving or reading any information left on small optical media particles even through specific and dedicated electronic equipments. KOBRA 400 HS OM has been evaluated by NSA and meets the requirements of NSA specifications for optical destruction devices dated November 2018.

- **Special 1,5 x 2 mm high security cutting system** for Optical Media shredding up to "Top Secret" security level
- **Automatic Oiler:** special integrated automatic oiling system. Automatically lubricates the high security cutting knives during the operation of the shredder for continuous maximum shredding capacity.
- **24 hour continuous duty motor:** no overheatings, no duty cycles. Motor thermal protection.
- **Energy Smart Management System** for power saving stand-by mode
- **Super Potential Power Unit:** heavy duty chain drive with steel gears
- **Automatic Reverse System** in case of jamming
- **Automatic Start & Stop** through electronic eyes
- **Safety Stop:** automatic stop when bag is full and electronic door safety switch
- **80 liter strong and reusable fabric bag** for optical media shreds - **Steel cabinet** mounted on casters

**CONSUMABLES:** *Kobra Oil* for Automatic Oiler (24 bottles of 1 liter each, art. code 51.086) - *Fabric waste bags* for optical media shreds (art. code 51.071)
